

BEAUTY CARE INSTRUMENTS

www.mohsangroup.com

INTRODUCTION

In 1972 Mohsan Surgical was established with the sole aim to export high Quality surgical, dental, beauty Instruments. Under the banner of Mohsan Surgical our products were advertised throughout the world by the help of catalogues, brochures and personal visits to different countries across the world. These efforts bore fruit and we managed to establish our credibility and began exporting quality instruments globally.

We achieved tremendous success by virtue of constant dedicated efforts, devotion to duty and maintenance of quality control. This quality management system was properly implemented and is being successfully executed at all production stages. This QMS enables us to control and prevent unforeseen circumstances at every stage of production and export.

Keeping in view the universal quality standards, we are fortunate to obtain cGMP certificate (Basic requirement of FDA for export to the United States of America) and also achieved the landmark certification of ISO-9001: 2000. Regular frequent COC audits are carried out by experienced auditors.

Its been almost 40 Years of dedicated service which has earned trust and reputation to us in this field. And as being a manufacturer we have ability, knowledge, infrastructure and compliance to design & manufacture instruments as per the needs and requirements of our respective buyers/clients. The customer satisfaction is what we always strive for as we believe the customer is a King in this capital society.

MISSION STATEMENT

"To become a Global Company by providing our valuable customers the best quality products and prompt services through product innovation, development and acquisition of technology. The satisfaction of our customers and employees is a major part of our mission."
